

# YOU'RE INVITED

## Astronomy for Everyone: Size & Scale of the Universe

Come experience an inspiring and uplifting presentation that will draw you into a deeper understanding of the workings of the universe.

**“You took a great subject (deserving of much more national interest) and made it a truly awesome, inspiring, and unforgettable experience!”**

In a time where there is concern for our nation and welfare, the purpose of Look Up to the Stars is to help everyone do just that, to think big, dream big, and to foster interest, curiosity and literacy in science through the delivery of awe-inspiring, educational and entertaining astronomy programs.

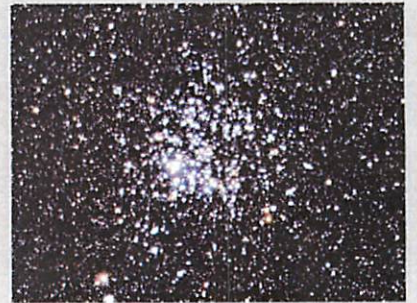

Join us for this family-friendly presentation, learning more about the beauty and harmony of the universe. Astronomy for Everyone: Size & Scale of the Universe explores the universe from the very small to the very large. It's a virtual journey throughout the cosmos.

**“The program was fantastic and we had an all age's crowd who loved it, and our attendance was phenomenal breaking an all-time record.”**

Kevin Manning worked as a consultant with NASA and the Chandra X-Ray Observatory launched on the space shuttle with the Harvard-Smithsonian Center for Astrophysics.

**Sutton Public Library  
Thursday, October 26  
6 p.m.**

Following the presentation we will all go outdoors to view the rings of Saturn, etc. through a powerful hand-crafted telescope, weather permitting.

**Look Up to the Stars at the Sutton Public Library is supported in part by the Institute of Museum and Library Services through the Library Services and Technology Act, administered by the Alaska State Library.**
