Hello District 9! Palmer to Glennallen, Delta Junction to Valdez and Whittier

Forwarded from Elizabeth Rauscher on behalf of our Representative George Rauscher regarding the very serious issues at the Jonesville Mine in Sutton:

Now is the time to write the House Finance Chairman asking him to hear the Jonesville

bill. Below is a sample letter you may use. Please forward this to anyone you know who has interest in or concern about Jonesville recreation area - access, crowds, safety, etc.

Thank you,
Elizabeth

Subject: **Sample Letter** to Finance co-chair Neil Foster about HB6 Jonesville Public Use Area

House Finance Co-Chair Neil Foster,

I am writing to you today in support of HB 6 - The Jonesville Public Use Area Bill. The impact this non-declared Public Use Area is presenting to the safety of the residents of Sutton is alarming.

In the past years homes have received bullet holes, people have been shot and killed, kids are getting hurt by 4 wheelers running over them while camping, fecal

matter is everywhere, millions of spent lead bullets are laying everywhere possibly contaminating streams and water ways.

The state spent millions of dollars to create this Public Use Area and recklessly did not produce a management plan beforehand. We are begging the legislature to allow this simple declaration of a P.U.A. so the community can begin to work on a management plan.

How can "Selfie Bills" and "Naming a Ferry Bills" be more important than a bill that can stop so much destruction and actually save lives?

Respectfully submitted,

John or Jane Doe

(or whatever you think is important to write to them about)
