Do you hold a current Alaska Voters Registration?

Would you be willing to complete an Ethics Form if elected?

Would you be able to regularly attend council meetings on the third Wednesday of each month?

Please give a short description of your background.

I have resided in Sutton for 37 of my 47 years and will always consider it my home. As a child and teenager I spent most of my time here and was fortunate to part of a vibrant, active community. I was active in many youth organizations that developed leadership and citizenship skills. I attended Auburn University and earned my degree in Animal/Dairy Science, then lived in several places before returning home to Sutton in 1997.

Since returning to Sutton I've been employed by the Mat-Su Borough School District, first as a paraprofessional at Sutton Elementary, and now currently as Applications Support for Information Technology.

List skills you can offer to help the council be effective.

I have many computer/organization skills to offer the board. I can assist with website management, documentation and archiving and communication with the community. I also have background in Parliamentary Procedure and can assist with meeting organization.

Which aspects of the Sutton community are you most interested in or concerned with?

I would like to help with community tensions and try to work with all groups in the community. I feel that I could learn and grow while trying to help with this issue. At some point we need to reset and look forward. I'd like to be a part of that as it is hard to concentrate on anything else when we aren't working together.

CANDIDATE APPLICATION

I wish to be included on the ballot for October 18, 2017 election to Board of Directors for Sutton Community Council.

YES. NO

- Do you hold a current Alaska Voters Registration?
 Would you be willing to complete an Ethics Form if elected?
 Would you be able to regularly attend council meetings on the third Wednesday of each month?

Please give a short description of your background.

As a lifelong Sutton resident, local business beneficiary and a new mother I am invested in the evolution of our community. Having grown up in this town I can remember "The Locals Table" under the staircase at the cafe, Bannon's fresh produce stand in the parking lot and endless community events in the summer. Since then I have grown to acquire an educational and professional background in Early Childhood...

List skills you can offer to help the council be effective.

I feel that with my professional background I am able to offer objective listening when community concerns come to the table. My high school background in Peer Helpers, Student Council and other groups/coalitions such as the mat-su substance Abuse Prevention Coalition that presented to legislative in Juneau...

Which aspects of the Sutton community are you most interested in or concerned with?

I am concerned that we are a community divided. As such I worry we are unable to thrive at our full potential. As a community council member I would do my best to look at the community as a whole and bring discussion to the table that will strengthen our unity, education and resources.

• Please Give a short description of your background

Development and Behavioral Health. Now, as a new mother I am stepping down from the "Professional world". I am currently focusing my attention on the progression of the Sutton General Store with my mother and raising my family. I feel that a large part of raising my family involves building up the community that will shape my child into the adult she will become. It takes a village to raise a child, and this village raised me.

- List skills you can offer to help the council be effective.

gives me the foundation to speak tactfully on pressing matters.
